Any offers involving prior part cargo(es) are subject to the review and approval of the Charterers. The charterer may at their discretion reject an offer if the charterer determines that award of this contract may affect the timeliness or contribute

to a delay in the delivery of any USAID-financed emergency cargo(es) to intended beneficiaries. (E.g., If an offeror already has been awarded a contract to transport a USAID-financed emergency food assistance cargo and proposes to ship the cargo covered by this solicitation with that prior part cargo, and there is no overlap between the laydays for these separate cargoes, such a proposal would likely delay emergency food assistance reaching people in urgent need of it, which would impair broader Food for Peace programming.)

(1.f) Subject to (1.e)., These USAID cargoes may not be commingled with other part cargoes contracted under separate Charter parties. If any separation required, USAID cargo to be separated by vessel's natural segregation or otherwise by Kobe-type separation. Separation, if any, shall be at owner's time, risk and expense.
